EDUCATION

Schulich School of Business, York University

Toronto, ON

Bachelor of Business Administration, Strategic Management & Business Analytics

Expected September 2027

- **Academics:** 3.7 / 4.0 cGPA, York University Renewable Scholarship (\$10,000)
- **Coursework:** Brand Management, Marketing Management, Analyzing Data, Managing Data, Strategic Management

PROFESSIONAL EXPERIENCE

Deloitte Consulting LLP

Toronto, ON

Business Analyst, Finance Transformation

May 2026 – Present

- Supporting **Finance Transformation** engagements across two concurrent client mandates, contributing to ERP and EPM design workstreams serving **5+ business units** at a leading Canadian financial institution
- Selected Project Experience:
- Scoping an Oracle ERP implementation for the client by leading readiness assessments across 8 entities, presenting scope, timeline, and complexity recommendations to client leadership
 - Gathered and refined detailed functional requirements from **40+ Finance end users** by designing structured elicitation surveys across **20+ processes**, documenting **future-state system needs** to inform **solution design**
 - Designed discovery workshop frameworks for **25 workshops across 3 functional domains** (transactional accounting; close, consolidations, and reconciliations; reporting) by researching Oracle documentation, surfacing current-state workflows to drive Key Design Decisions (KDDs)
 - Supporting the strategic implementation of Anaplan to centralize Finance, Product, and Risk planning workstreams across the client's finance function
 - Accelerated Anaplan adoption across **5 business units and 5+ banking products** (leasing, lines of credit, mortgages, credit cards) by designing **5 tailored end-user enablement decks** to onboard Finance, Product, and Risk users onto new planning workflows

Wealthsimple Technologies Inc.

Toronto, ON

Intern, Finance Operations

September 2025 – April 2026

- Automated P2P invoice processing for the Director of Finance Operations by engineering a custom pipeline, **eliminating 5–10 hours of weekly manual work** across the finance function
- Selected Project Experience:
- Delivered real-time cost visibility across **\$16.9M in business savings** for Finance leadership by engineering a JavaScript dashboard that consolidated five disparate Excel data sources, **cutting reporting cycles by 66%**
 - **Eliminated redundant weekly standups** for **9 stakeholders** across **17+ active projects** by designing a centralized Notion project management system that consolidated backlog tracking across four previously siloed tools, reducing coordination overhead and accelerating sprint reporting

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

180 Degrees Consulting (DC)

Toronto, ON

Engagement Manager & Vice President, Pro-Bono Consulting

August 2024 – Present

Selected Project Experience:

- Product and pricing strategy for a Silicon Valley re-entry-tech startup
 - Developed the pricing strategy for a three-product portfolio by building a revenue model informed by willingness-to-pay research with Bay Area service providers, validating a **\$3,000–4,800/year** price point for the client's CRM product
 - Co-built a bottom-up market sizing model estimating a **\$67M market opportunity**, triangulating California corrections release data, provider funding distributions, and national provider-density benchmarks
- Engagement Manager for a Bay Area re-entry-education non-profit
 - Led **7 consultants across 3 workstreams** (data analysis; barriers research; report & infographic), analyzing **10 years of student data across 195 program participants**, presenting recommendations to the client's Board
 - Built an enrollment-retention funnel mapping participant drop-off across the education pipeline, identifying that **3 partner institutions drove 66% of retained enrollment** and recommending resource concentration
